“ Well I've just learned this morning about the passing of my friend Paulie. I had the honor of being Paul's bus driver a few years back at Maconb Intermediate School District. I've worked for the district for quite some time now and many many students have touch my heart in so many ways however Paulie touched my soul that year. His presents and smile made my days that year much more brighter more than he could ever know. I've thought about you thru the years and have gone in the school just to see your smile. I loved interacting with all of his family who clearly cherished him. I am very sorry for your loss ! May the memories of him bring a smile to your face. I will always remember Paulie and feel very honored I was able to meet him and share that school year with him only if it was transporting him singing country songs to him and talking his ear off till I got that good ole Paulie smile ❤️

“ Teachers all have a few students that quickly become the "favorites". Paul, with his beautiful smile, pit of the stomach laugh, and expressive eyes, became a favorite to me. I am so thankful for the opportunity to have known and worked with Paul, he has forever left a mark in my heart (and given me a newfound appreciation for country music).
