“ *My cousin Pete was one of the most talented people I've ever met. His masterful mechanical mind was only surpassed by his artistic talent. He could build a complex engine with thousands of parts and draw with astounding creativity and precision. His perfectionism drove him to create at a level most people only dream about. Pete was exceptionally loving even if his exterior seemed bristly. His sensitivity made him more vulnerable; it also made him more beautiful. Fly free Firebird, I love you.*

“ I remember being a kid and hearing the loud bangs of your drums. I remember being a kid and tormenting you by invading your spaces. I remember being a kid and being in awe of your talent. Now as an adult I remember the smile you had when we said hello. I remember the conversations we shared about sports, cars, and of course politics. I remember that you were proud to be my uncle.

As my older brother growing up, we we're thick as thieves... We partied a lot, and played a lot of hockey, he was talented on the ice. As he was on the drums, and with cars. I Love You!!! Brother and I'll see you on the other side. RIP ❤️🙏

I remember Pete showing me an incredible roadster that was right out of American Graffiti, that he built from scratch.

Our thoughts and prayers go out to the Tocco family and friends that will miss him in the months and years ahead...

So sorry for your loss. Ron Cash
