“ I had the extreme honor and privilege to work closely with Bill for several years at SPCo. His professionalism, warmth, dignity, honesty, and integrity are just a few of the honorable traits of this gentle-man. Above all, I considered him to be a true friend. The lessons in life which I learned from him...have carried on with me professionally and (most importantly) personally. Before my eyes, I witnessed the introduction, friendship, love and marriage between he and Dawn. Truly, an unwavering and everlasting Love. Although our lives have become emptier, our hearts remain full knowing how this man has affected our souls in so many ways.

“ We met Bill and Dawn many years ago on C-Dock at Algonac Harbour Club. Their boat was docked next to ours and they are part of our C-Dock family. Bill was the easiest guy you ever met to become friends with, always a gentleman with a contagious laugh and always ready to bend an elbow. Even though we're both out of boating now we and a group of friends get together monthly to bend an elbow and relive our glory days. Fair winds and smooth sailing Bill (even though we're power boaters) you were a great friend!
