“ Dear Penny & Family,  
I was made aware of Brian’s passing yesterday.  
I worked extensively with Brian on a pretty complex hydraulic project at work for quite some time. Shortly after that project came to a close in 2016, I retired and all I heard from Brian was “I can’t wait to do what you are doing!” I only wish that you all could have enjoyed a much longer retirement together.  
I am shocked and saddened by his passing. There are no words that can resolve or weaken the pain that you all are experiencing- somehow I pray that you all find the strength in giving the pain you are deep within, to God.  
I am glad to have spent a lot of time knowing Brian in the engineering facet, I am glad to know that we actually got a few crazy things implemented into the vehicles that are being used today by our US Army to help protect our great nation.  
May God ease your pain of this incredible loss.  
George Adamson, fellow engineer.

“ Brian was such a fun guy to be around from the “aspect” that he was always willing to go anywhere and do anything. Even helping me to add to his collection of Sagebrush margarita glasses. We were working on a set of 6 and we were getting pretty close! You will be forever missed my friend but never forgotten.

So sorry to hear of Brian's passing, my condolences to his family. May God rest his soul. The Stilwell's were my next door neighbors in Buffalo. The familiar code nickname “Ahh Ohh” we had for each other because the children were at an impressionable age. Lots of laughs. Again so very sorry for your loss.
