“ *Our,our dear friend Frank! Toni Trice and I have looked and looked for years for you! In fact, we attended a Christmas luncheon as we heard you'd be there! You never came, and no one had any information about you. We are so sorry and saddened about losing touch after so many years of being together! We worked together at Ford Tractor Operations, took jazzercise in FTO's lunch room, you could kick higher than me, laughed so much, remembering your great laugh, fun, sharing drinks and laughter at Peabody's at the bar on Friday nights after work, and a true gentleman! I went with you to go to the nursing home when your Mother was leaving this world, remember when the twins were born (that night you met us at Peabody's and were so happy, we were, too!). You were my date several times...at Toni's wedding, celebrating Chet's birthday, going to the theater, going to dinner with the gang, meeting your cousin who came over from Italy and stayed a month at your place, your singing your heart out, we danced wonderful together, a great smile so welcoming, and most of all, a wonderful wonderful friend who touched our hearts!*

I recall when I learned your son's secretary, Sidney Thompson, was my cousin! Small world! She often spoke highly of Anthony! She's gone now too....

Our hearts are tender learning of Frank's passing...he was a beautiful soul whom we have always greatly missed and loved, bless his heart, and to his family, bless your hearts also.....

“ *I am so happy our paths crossed. We spent many, many happy times together traveling, sharing dinners, going to the movies, or just hanging out. You always made me feel happy when I was around you, and always made me feel loved. You were a dad, brother and best friend to me for many years. You will be sorely missed my dear, dear friend.*
