“ So sorry to hear about Jimmy’s passing. He was a Great guy and friend. One of the best electrical guys I’ve ever known also. We had many years of great memories and he was a fun guy to work with. I remember driving Jimmy to and from work for a short while when he wasn’t comfortable driving himself and I am really glad I was able to do that for him. So long my friend until we meet again. God bless and welcome you!

“ *I' am sad that he is gone, but he is in a better place away from the problem he lived with. I worked with Jim for many years at Borg Warner. The happies I seen him was Jim was when he had his hand in a control unit rewiring it, or build a control unit for some equipment that Borg had, Those are the memories I will remember about him, not his Parkinson's that took him away.*

*God speed with him.*
