“Goodbye my friend. I was truly blessed to have had you in my life. Just knowing you made me a better man. You helped a lot of people and changed a lot of lives and those changes will live on forever. Some of those changes will affect families for generations to come. You truly were a special person and you left your mark in this world. Michelle told me that you loved me those words will ring in my ears the rest of my life.”

“The Peace of the Lord be with you in your time of need. Jim new Jesus because of the faith Jesus gave him. He's with Jesus right now and Jesus is with you right now! It's comforting to know that one day we see Jim and all the Saints who from their labors rest in Heaven. What a great reunion that will be! What God Ordains Is Always Good.”

“Dear Mrs. Hielscher & Family, My name is Tom Crampton and I work at Mott Community College in Flint. I worked with Jim on several different projects over the years and very much enjoyed our work together. I was heart-broken when I heard the news and want you to know that I am praying for you, your children and the entire family during this most difficult time. I had spoken with Jim Kelly just before Thanksgiving and was encouraged that it seemed Jim was improving. I know you have great memories of your time together and pray that those will comfort you forever. My very best wishes and prayers. Sincerely, Tom Crampton”

“Michelle, my thoughts and prayers are with you and your family. Jim was certainly something special and in a large part made me what I am today. Like the students in the many programs that had their lives changed my life was also changed. Like many of us who were touched by him, I will always have him in my heart. Please find peace and strength as time goes on.”

“I am very saddened by this news, and I feel compelled to share. I was fresh out of the military and working for a robotics company, frustrated with my current boss I was ready to quit and start over. Jim at that moment was coming in and taking over the department, and immediately put me in a position to advance and use my skills properly. The first real boss outside of the Navy, it meant the world to me. The company went in a different direction and we all moved on to better opportunities and careers. I loved working for him and will always remember what he did for me in such a pivotal moment in starting my civilian career. I ended up with another robotics company and a few years later ran into Jim at our facility, we smiled and I immediately went over to say hello and shake his hand. A very good friend of mine texted me today to tell me he thought I would want to know that Jim had passed. My heart is so heavy, gone way to soon. If I could say one thing to Jim which I said many times, it would be thank you for believing in me and giving me the opportunities I may have not been given otherwise! My heart goes out to his Wife, Children and entire family. RIP Jim Hielscher, never forgotten and will always be missed.”
