

Mauro Bianchini

March 18, 1942 - April 11, 2025

BIANCHINI, Mauro. April 11, 2025. Age 83. Beloved husband of Alma (nee DiPirro) for 53 wonderful years. Proud and adored father of Marco (Margaret) Bianchini and Adriana (John) Silveri. Cherished Nonno of Sofia and Luca Bianchini. Loving brother of Fausto (Thersa) Bianchini, Paolo (Roberta) Bianchini, and the late Lina Norma (Luigi) Sebastiani. Dear brother-in-law of Paul (Shirley) DiPirro. Survived by many loving nieces and nephews.

Mauro had a lifelong love of skiing and soccer. Some of his happiest days were spent skiing in the breathtaking mountains of Italy, where the crisp mountain air and snow-covered slopes felt like home. Years later, he brought his family back to those same mountains, not just to share the scenery, but to share his story.

Together, we traced his roots, visiting and staying in his childhood home and the workshop where Mauro once worked beside his father and grandfather. It was there, surrounded by worn tools and old walls filled with memories, that his stories came alive. We saw the places that shaped him, the hands that guided him, and the history that connected us all.

Mauro was a master artisan of woodworking -- a craft deeply rooted in his family, passed down through generations. But it was his artistic creativity, attention to detail, and exceptional workmanship that truly set him apart. His

hands could turn simple pieces of wood into beautiful, lasting works of art, each carrying a piece of his heart and story. His work wasn't just admired -- it was cherished. His craftsmanship found its way into people's homes, hearts, and lives, standing as a testament to his passion and skill.

It was a journey not just through the hills of Italy, but through Mauro's heart, his history, and the legacy he built with love, skill, and pride.

“ Marco and I met at Lawrence Tech and thankfully shared several classes, one of the first times we did homework together was in Mauro and Alma's basement. Mauro's fingerprints are all over the house, but in the basement I will never forget the huge desk that he made out of wood (and potentially lead), it was so overbuilt and heavy that it was a true 4-person lift. In the corner of the basement was the traditional second kitchen, but the wood framing was so thick and reinforced, it could have easily supported the entire house. There is no doubt that Mauro overbuilt, but his very best work was his tedious finish work, if you ever get a chance to see the crown molding in the dining room, you'll be stunned, he created every detail with his bare hands and the craftsmanship of that work has no equal. Anytime I was over there I could count on seeing a very clean work van, a stunning car in the garage, and hearing a boisterous "Hello Mack Fly" while Mauro was crushing my hand, I am very proud and lucky to have known him.

“ *I admired Mauro for his kindness, lightheartedness and his amazing workmanship. I worked many projects with him, me in ceramic tile and marble, and him doing carpentry. He was a master in his field and serious about his work yet he jovially told a good story! He will be missed. Love, Rich and Mary Lynn*
