I first new Pat when I worked at Porter Memorial Hospital and she was a "pink" lady. I was called down to the ER when her husband died from a heart attack. She wanted her Priest to come but he couldn't. I called the on-call Chaplain who was the Pastor of the First Presbyterian Church. He stayed with her until Susan came. His devotion made her join his church. We then worked at the Presbyterian Resale Shop where we had so many laughs and good times. We both talked about liking martinis!! She and I moved to Pines Village Retirement Village at about the same time. I think of her so often--she was quite the lady and a dear friend. May the love of friends give you comfort. May the love of the Lord give you Peace!!
