“Aunt Ruthie and family, I am so sorry for your loss. I always remember Uncle Reno as being so particular about his home. My friend was looking to buy the house on Lake Drive, and she was so impressed at all the cupboard space and organization throughout the entire house. He had many talents and hobbies. His lighthouses were unique. He was quite talented in a lot of ways. I know he will be missed, and again I am sorry for your loss. Love, Vivian”

GF

“Sue, Mike and the boys were SO lucky to have Mr. P as their father, grandfather. What a wonderful and considerate man. Mr. P came to my rescue, years ago. I was trying to find figure out storage for my 2 young daughters room and without hesitation he volunteered to make me a couple of storage chests. Well, I expected 2 crates but was SO surprised to see these 2 magnificent storage chest that he crafted out of "scrap" wood which he salvaged from here and there. Unbelievably beautiful.
Mrs. P, Sue, Mike, Michael and Andrew, we are so sorry for your loss. Our hearts ache for you.
Mr. P you will surely be missed. RIP”

CS

“I spent many nights at Uncle Reno & Aunt Ruth's growing up. I always loved spending time at their house. A vivid car memory was when he had a REALLY cool Camero, the first model year I think. Uncles didn't have cool cars, but Uncle Reno always did! I remember squeezing Ricky, Sue, Mike & I in the back seat taking me to their house to spend the night. I felt bad they had to squeeze me in, but we always had fun!!
Over the years I have been a proud recipient of some of his handiwork. He was always making something for someones house...from his lighthouses, or wheelbarrows, or furniture pieces. He could make something out of any scrap he got his hands on!
Gonna miss you, Uncle Reno!!”

KK

“ I remember the times that Uncle Reno and Aunt Ruth would ride bicycles over to our home on Raymond Court. I also remember the time he brought a Vega over to show us, I think this was in the early 70's. I will always remember the hospitality and warmth of Aunt's and Uncle's home. Uncle Reno was a very talented engineer, and he had many passions in life. He loved automotive design, and I will never forget what Walt from MCC said " He was the best designer that he ever knew". I think in his early years he was a cartographer in the Korean war. I will always remember him in the garage working on a light house. Kurt"
