“ *My prayers go out to Robyn's family. I had the honor of knowing Robyn only for a short time but what an impression she made. Our profession lost a wonderful member in Robyn...but she will never be forgotten!! Denise*

Denise Blackburn - November 24, 2010 at 12:00 AM

“ It was a pleasure and honor to work with Robyn Roncelli in the development and implementation of the Health Information Technology (HIT) Program at Macomb Community College. Robyn started at Macomb as an adjunct faculty in our Medical Assisting Program. When the College decided to start a Health Information Technology Program, there was no doubt in my mind that Robyn was the person to develop the program. Robyn had initiative and passion for the HIT program. Her zeal to teach others this profession was evidenced by her commitment to students. Her goal for her students was success in their education. She facilitated student learning. Robyns efforts to develop the best HIT program were realized in a full accreditation of the program by the American Health Information Management Association. I was able to work closely with Robyn as she developed a new program at the College. We had many late nights and occasional weekends that were spent problem solving issues that come up with the start-up of a new program. It was during that time that I was able to see the personal side of Robyn that made her who she was. She balanced a new marriage, grown children, addition of grandchildren, all while she developed and implemented a high-quality program in Health Information Technology. She even took on the diagnosis and treatment of cancer with the same gusto that she took on the other aspects of her life, with head-on determination. Robyn lost her battle with cancer this past week. She will be missed at the College. She will be missed by me. But she will be with us in our hearts and will always be the Program Coordinator who developed the Health Information Technology Program at Macomb Community College. She will be the teacher who was instrumental in helping students become Health Information Technology professionals. She will be our colleague. She will be our friend. Charlene McPeak, Ph.D. Dean, Health and Public Services Macomb Community College

“ *Robin was a very special person. She was kind-hearted, giving, and thoughtful. Through being close friends with Kristi we got to see how all her love touched the lives of everyone around her. Robyn, you will be deeply missed. Our thoughts and prayers go out to Ken, Kristi, and all of Robyn's family. Love, John and Zoy*

“ Hello. I am a 2009 HITT graduate of Robyn's. She was an amazing woman who loved to pass on her extensive knowledge to her students. Just know that she has made a difference in many people's lives, helping them better themselves and create a better lifestyle for themselves. I have the upmost respect for Robyn, and am so sorry for the pain and suffereing she endured. May Robyn now rest in peace! Barbara Pollock
