*I have many fond memories of growing up with your mom as our neighbor. She was a dear friend to my mother. They kept in touch long after she moved. My deepest condolences and prayers of comfort for the entire family.*

“ *I was lucky enough to have Ms Acord twice as a teacher. Once in kindergarten and again in third grade. Great memories with her at Wilkerson Elementary. My condolences to her family and friends. Here she is with our class at a Halloween party in 1989.*

“ My sincerest condolences on the passing of Rose. She had a beautiful smile that lit up a room. I was her Dental Hygienist for over 30 years and I always looked forward to her visits.

Rose was punctual and always on schedule. I got to know both her kids Lisa and Angelo and their families. It was a pleasure to watch them grow up. Rose was proud of them all. The whole family was nice and outgoing like her.

Rose will be missed.

“ A beautiful person that helped me thru many situations by just being there when I needed someone to talk with. A very special neighbor who enjoyed our conversations practically every day just sitting in her garage and conversing about anything. I have truly missed her since moving from the condos, but we continued to keep in touch. R.I.P. my friend.

“ One of the most important people in my life. Her memories burns brightly in my life. She was bigger than life to me in my childhood. As an older adult she is foundly remembered as the teacher that truly cared for her students. I thank her for being a part of my childhood and providing me with memories into my adulthood. May the light of God shine upon you.

“ So many memories of a fine lady. For us, she will always be the “candy lady” after Mass when our boys were young. Our families always sitting together and knowing there would be treats after mass from her. And my deepest gratefulness on how she would never allow a child to feel left out -quietly providing a “sugar free” treat for my son after he was diagnosed as type one diabetic. She was an amazing lady. Much love always
