“I never had the pleasure of meeting Sal in person. As we were in different cities, it was all through emails and phone calls, and Sal was very reserved about his life. He worked very very hard, that I knew, and when he did, he had a special way to talk about his family. You could feel the caring in his voice. Upon his return to the US, I got to work with Nancy, the cruise captain of the family, and we grew close. Through her, I got to know what an amazing human being Sal was, and how special he was. His stay here was a short one, but so meaningful. I believe we all have missions in life, and he just accomplished his one early and God needed him back there. He helped Nancy create 3 fantastic people that I am out of words to describe. He touched so many, and I am lucky to be one of them. I hope you know that, Sal, and I thank you with all of my heart for what you gave me. Nancy, whenever you miss Sal, just close your eyes and look within, he will always be in your heart. If you don't want to close your eyes, look at the boys, he will be in them. If you are outside, look up, he will be watching over you. Love you.”

“Sal was the a wonderful son in law. Nancy and Sal bought us our first digital camera, then MP3 player, a tablet and was my IT guy for many many years. He taught me so much on the computer and with team viewer helped me out of many a problem. We loved him so much. Nancy, your father and I know that you have the strength to carry on his legacy through your sons. Sal will always be in our heart. We love you so much and will be here any time you need us.”

“My condolences to Sal's wife, kids and the rest of his family. I graduated a year after Sal. We had our first job together at Little Caesar's Pizza. We were also on many academic teams together (Math and Science Olympiad, Quiz Bowl, Future Problem Solvers, National Honor Society). He had a brilliant mind and truly was one of the smartest people I went to school with. All of his academic achievements were amazing Valedictorian of his graduating class, National Merit Finalist, 1400 on his SAT, 34 on his ACT. Yes, I still remember this because he was my academic role model! I will miss him.”
